TTP-245/343 Plus

The TTP-245 or TTP-343 is the perfect choice to print your labels. It houses the strongest and most durable thermal transfer mechanism in the industry and twin motors for lower torque, greater durability and quiet operation. You can choose from a variety of labels, ranging from paper, vinyl or polyester materials up to special (self laminating) cable labels, sleeves, magnetic tapes and plastic tags.
